Survey Areas 3 & 4

- Areas previously covered in second growth mixed hardwood forest.
- Areas clearcut of timber—timber removed, many stumps bulldozed or pulled.
- Wide, deep bulldozed roadcuts bisect knolls causing extensive disturbance & displacement of artifacts.
- Low-lying gravelly areas surrounding knolls left relatively undisturbed.

Areas were walked over, concentrations of artifacts were flagged, measured, & their approximate locations were plotted onto a 1"=200' topo map. (Small sample of artifacts recovered to approximate deposit or "refuse areas")

- STP's excavated along driveway & some STP's excavated in disturbed areas to determine degree of disturbance.

SA #3 = 2 refuse areas
  12 STP's along driveway
  5 " in disturbed areas

SA #4 = 4 refuse areas
  4 isolated finds
  5 STP's in disturbed areas.
Refuse Area #1 (survey area #3)  May 18, 1983

Bottleglass: Mang. tinted/green tinted/clear/blue/
tinted/amber tinted/brown tinted/blue-green
milk glass/red tinted glass/some ornamental glass
Porc. lined pine mason jar lids
Whiteware, yellowware, semi porcelainous
whiteware, porcelains, flowerpots, unglazed
redwares, iron oxide glazed redwares,
course earthenwares
lightbulb fragments.
shell (oyster & clam)
brick, coal

Bones

- Approximately scatter measures: 38 ft x 60 ft (ie 60 downsize)
  located in a depressed gully area N-Eat of private road, on east side of ‘knoll’

Pearlware sherd located ~ 20 ft east of ‘modern’ scatter
Refuse Area #2

clear glass, green tinted glass, Rolling Rock beer bottle (1939), blue tinted glass, milk glass, whiteware, creamcolored ware, bone

measured approx 15 ft by 18 ft (18 downslope)

small scatter of very modern trash deposited ~35 ft upslope from refuse area #2.
