14 Sept 87 Mon

Clear, cool. Rain all weekend so bailing

Bobcat arrived at 9:00 Eric had a hard time getting it to Area IVA Weie taking off a 2x2 down into the sterile sub to prove its sterile. Weie also taking a 2x2 down below the brick rubble for the historic living surface. We'll do this a couple, other places too then down to IC south.

Have given instruction to BR to bail area VB so we can work on the large rectangular feature

Feature 6 slumped on the south of the balk. Peeled off from the passage wall really nicely.

Ellen cleaning her area with the help of the chaps of Cecile's crew.

Eric's crew working on the 3 K2's in the north.

15 Sept 87 Tues

Cool, clear.
Elizabeth out with a cold.
Cecile working with Charles for the week
Part at Perry Point

Becky threw her trowel in the ground muttering about supervisor thinking she wasn't working. She then proceeded to bitch at Dave about photos

Billy Ray removing the (walk) of F.6.

Ellen starting 2x2's in Area 1X

16 Sept 87 Wed.

Cool, clear. Bonita & Wally out sick, Cecile here.

Trying to finish IB. Working in area VB. Larry trying to define the very large dark rect. stain. We think its a living floor.

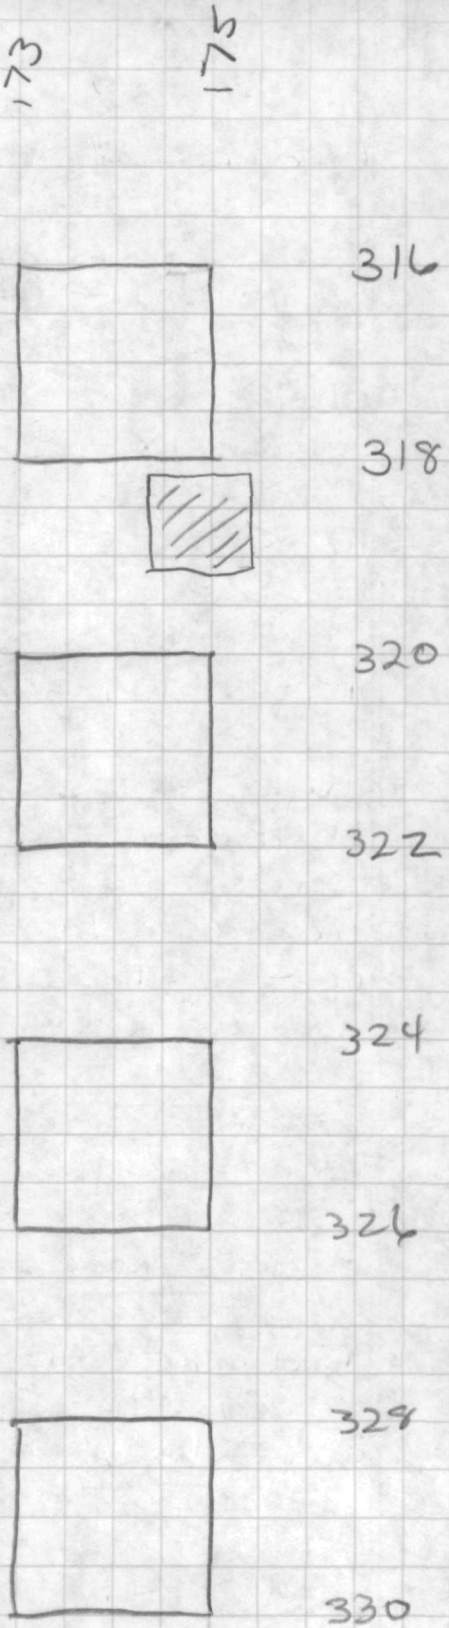
Finishing the rest of IC. Popping the units

Becky through a fit after a comment from Katherine about screen placement. She cried Eric had to calm her down.

Phil out of IB. will leave the features for now. Don't know if they require excavation

N

AREA IX



Yet or not.

17 Sept 87 Thurs

Cloudy, cool.

Betsy Cocker out. Cecile in the office for Charles.

Becky threw another fit in the van first thing this morning. She yelled at Ana about a room-mate problem in public. Ana took it well.

Bill pretty much has area VB cleaned. It sure looks different than it did last fall. We're remapping then will take sections from it in judgmental areas.

Betsy putting in intense grid in Cerea XII with Tom + Becky S. Have sent Wally to work with Bill

Ana will be done in IB today.

Excavation proceeding rapidly in Area ~~IX~~. Soil is shallow + soft. I don't know how the survey came up with 3 layers. We only see two. Most det. facts are pretty late.

Area IC finishing ~~southern~~ portion. Topping northern units.

22 Sept 87 Tues

Cloudy, drizzling then clearing up, cool.

Jeff + Nancy sick. No word from Bonita. Cecile but Charles - Joe + Pat at Fort Washington. Phil in Toronto.

Opening 5 2x2's in area ~~XII~~. There is a very large brick pad only slightly under the surface. The round itself appears to be rubble fill.

Bill working on features in VB. Also south of Feature 6.

Eric finishing area IC. Starting to clean area VII.

Ellen still working in 2x2. Only 1 crew number today.

I threw my own hissy fit this morning Oh Well.

Becky unhappy with Eric now. Sick & wants to go home

23 Sept 87 Wed.

Cool, clear

Becky out sick, Phil in Toronto. Pat & Joe at Ft. Washington. Cecile

Sent Tom & John V.V. to have wheelbarrow tires repaired. $14 to Texaco.

Sent Lance & John W with artifacts to the store room.

Bill almost down to the original destruction layer in F6 balk. Larry in the middle of the very large black feature 253. It has at least 2 layers the upper. There is a reconstructable white delft "chamber pot?" in this feature.

Ellens area determined to be

24 Sept 87 Thurs

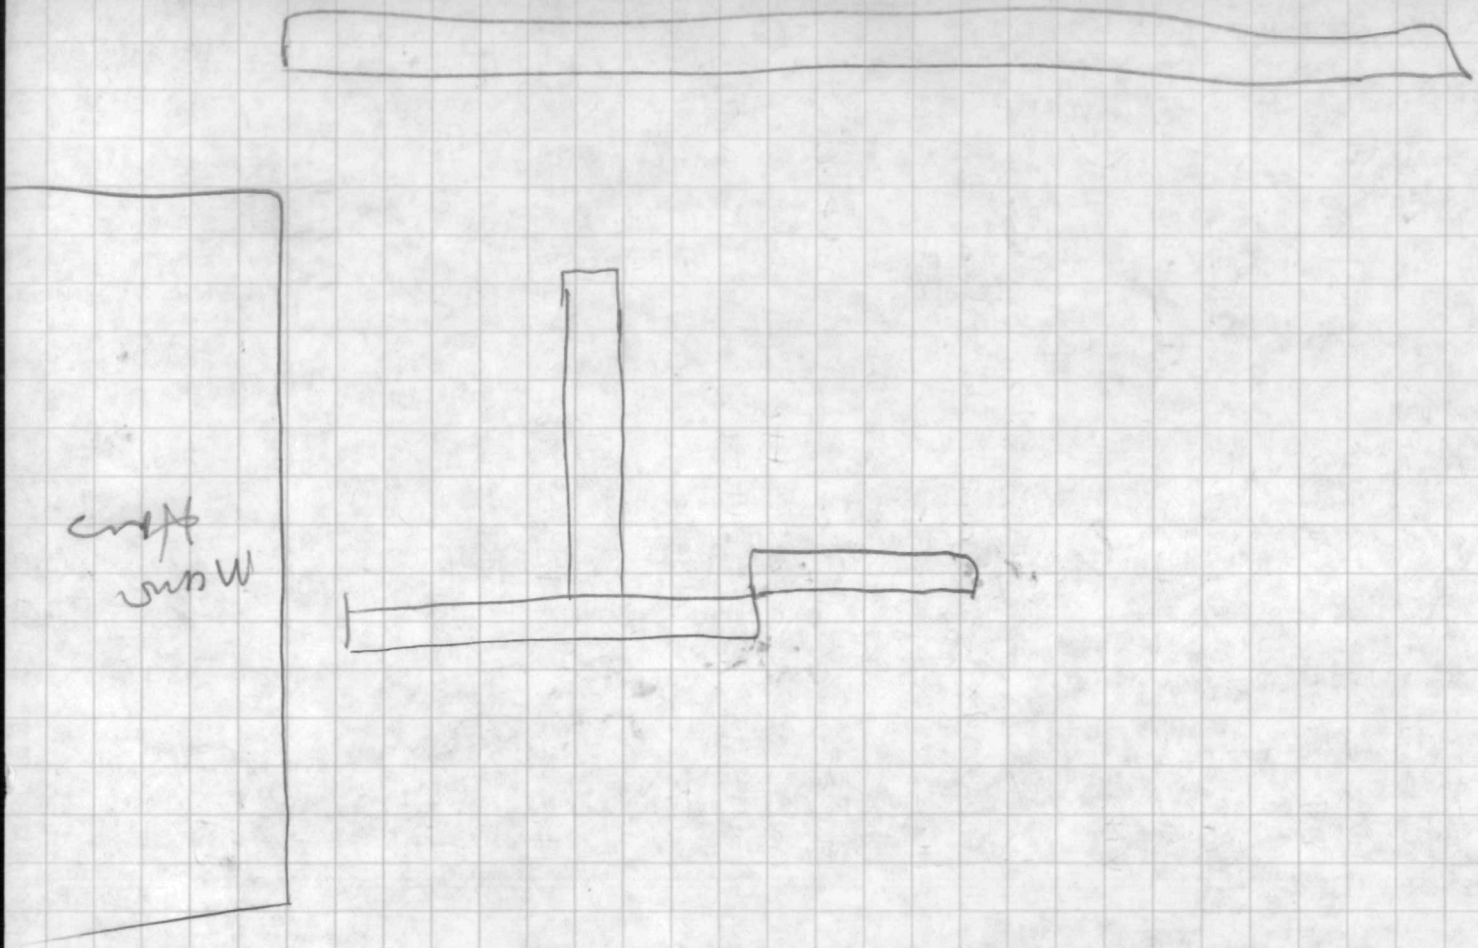
Cool, clear.

Pat + Joe still at Ft Washington
Mark having his car fixed
JW out sick

Eric opening SE corners of 1x2's in area VII.

Dan Wagner was out. Area IX has apparently been stripped down to very deep subsoil. The black stuff was manganese. How it got there I don't know. It is assumed that the upper layers were moved to area IVA. He says that the fill in this latter area is the cleanest he's ever seen he was very confused.

Area XII spreading out from health area. Finding white/yellow clay



25 Sept 87 Fri

Cold, cloudy but the clouds should break up.

Joe + Pat on Ft Washington still.

Ellen's crew, Nancy, Kathy + Phil working with Billy Ray this morning. Cleaning out the cellar for the photo's.
Chris crew all busy in 1x1's hoping for a stalactite. Fat chance.

Cecil's crew spreading out in a checkerboard. Finding smaller brick pads to the north of the hearth.

9/28/87 Mon

Cool, clear, warm later

Joe, Pat still on Ft Washington.

I went home sick at 1:00

9/29/87 Tues

I was out sick. Consult Jeff's notes for happening

9/30/87 Wed

Rain in the a.m.
Out at 11:30. Muddy + Cleaning. Cecile out doctors.

Working on cleaning both cellars for photos. The ballroom has been cancelled. We're now going to have a cherry picker and a professional photographer. All from crews doing an excellent job of cleaning up

10/1/87 Thurs

Clear, cool.

10/6/87 Tues.

Cold, clear
Just been in Florida Fri. & Monday so no notes except retrospectively.

We've spent yet another morning dealing with Becky + Katherine. At this point if they stay I have the urge to quit myself. I'm sick of it. So is everybody else.

Working on cleaning for the mobile work platform on Thurs. Have to be out at dawn. Every thing starting to look good.

8 Oct 87 Thurs

Photos today. No time for notes.

9 Oct 87 Fri

Cold, clear.
Lance + Phil out sick.
Mobile work platform still here. So is southern tree for the trees in XII. They are having a hell of a time. Finally got it so work gou on.
Moving to work platform

back to Area V for Bill after spending all day Tuesday and working until 6:00 pm on Wed. Then in the morning yesterday on the areas I we finally got everything clean. The photographer got here about 7:15 am. Took him a long time to set up. The sun came up at 8:00 and we decided we were ahead most. Luckily some clouds saved us. We got all the photographing done at 2:00! Aerial shots of V's + I's. Had to take the slide film Dave hand to an overnight place can pick them up at 3:00 today.

Bill back to the details of Area V. Cleaning out the stuff more. Working on 253.

Circle back in XII

12 Oct 87 Mon.

Cloudy, cold.

Rain in the morning. At the site at 11:30.
Cecile + Nancy out.

Personal problems go on + on. Some of the crew affected + disgruntled about the verdict to charge $30 a night. We hear they have some valid excuses to be here but if they don't tell us we can't know. John out of the office + Charles disappeared.

Bill getting to open more area hunting for a building around the passageway.

Cecile folks workings hard. Tom has a circular brick area. Looks like edging for a tree. Will see.

Eric folks digging hard Finding lenses of fill.

13 Oct 87 Tues

Becky R. seems to be gone
Pat touring with parents
Becky S. home for the weekend
Jamie sick.

Laid grid in area VIII
yesterday. We are digging
4 1x2m units there now.

Still working on 1x1's —
area VII.

16 Oct 87

Clear, cool.

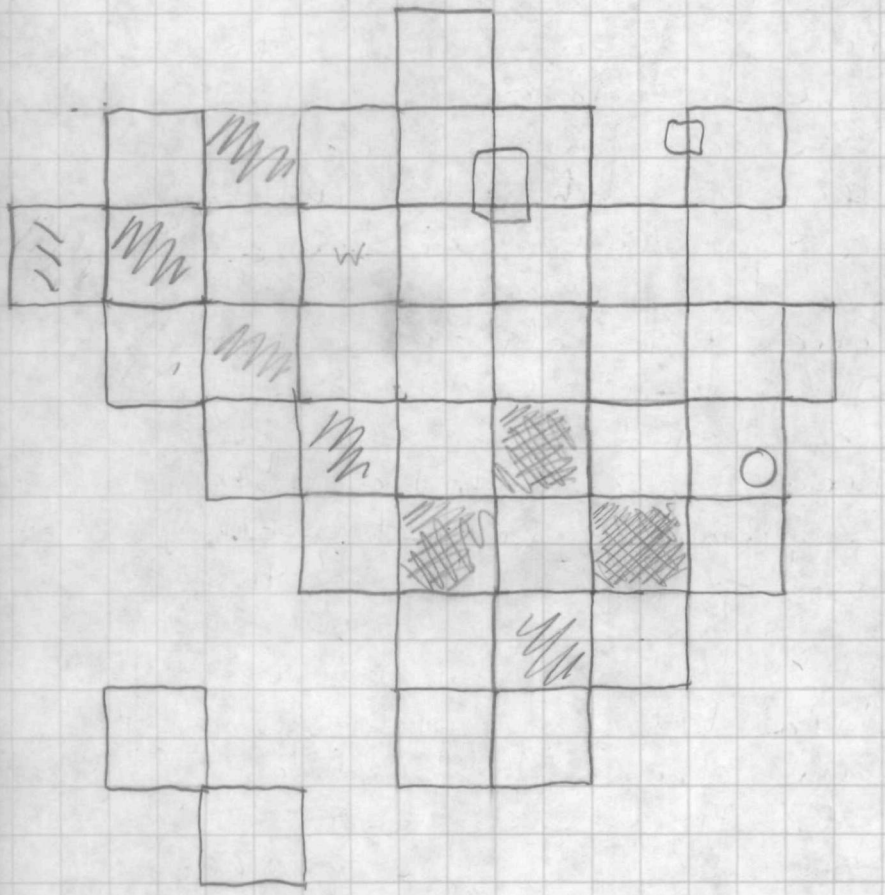
Ana, Pat, Becky S, Cecile out.
Jennifer Germer starting today.

Ceciles folks all digging merrily away. Need to take at least one unit down as far as possible. They dug through part of the profile already.

Erics folks digging away. JW's unit (now being excavated by Jennifer) There appears to be 2 parallel rodent runs. running N/S. Could this be a feature.

Area VIII stratigraphy very deep. No features yet. Hope we don't get any.

Bill up to the usual. Digging features all over creation. Nancy working on a fence line. Harry in feature 253 in VB. Mark in the cellar. Betsy who knows.



19 Oct 87 Mon

Clear, cool.

Becky S, Lance + Kathy out.

20 Oct 87 Tues

cloudy, cool

Lance didn't come back from NY yet. Betsy at NOAA today. Didn't work out. Still have to go again.

Talked to JPMc about the lab yesterday as well as the spring phase.

21 Oct 87 Wed
Cool, rainy.

Marion - Perry Pt lab.

Tom never showed up. Mark late as usual

Going down down down in area VIII. at least 1m 10cm in Phila mit + finding pretty

recent looking stuff. All the units are extremely deep here. No evidence of a structure yet.

1863 map shows structures in Area IX. We sure didn't find any evidence of one. Not enough trash for one thing.

Eric finding shallow linear features which he thinks are drag marks. Dana trying to define the boundaries of one of them. Seems to have formed an arc in the north. The fill is shallower in the northern part of the area also. Gets very deep in the south. Haven't found a structure yet.

Bill working on features in V. Nancy digging a big doughnut pot hole. Larry defining the edges of 283. Need to revise the giving of letters to subfeatures this large

Jeff was very confused about cfl of 46 253's he bond. I agree. We need to standardize. I have a tendancy to let Billy Pray run loose. Mark taking up the floor of the passageway.

Cecile working around the edges of the structure
