Note: Some dates and names have been marked with 'X'.
Into Ocean IX at 11:00 am.
IX is virtually static so far,
XII has its peak 1/2 exposure.
Then an antifront over the edge
of the marine slope.

Pick up Dave, 9:10-9:15
9:20 pm! Tonight!

Things to do:

3. [ ] ① get in touch of highway supervision
   about balloon setup.
   I.A. take attendance.
   " " call Southern En., will come out to estimate.
   " " get someone to get the patching kit.
   " " clean weeds around Aven home.
   fix wheel - boring time.

9/28/87

9/29
10 V 5A: move up volunteers for Sat. 9/29
D V 0: check on water
D V 7: get money from 4 for books
D V 8: get wheel barrows from Bradley's
D V 7: build wheel barrows, (need 1 brace, only had 1 Complete)
D V 10: go over hammer, matrix of Cube.

NOTE: Area IX important in that
it only area 1) Bean artifacts
(Bean period artifacts that is)

Area VII has jumble of 18th & 19th century artifacts in upper layers of fill. In lower layers mass increase in artifacts (mostly bone) just before subsidence.

Area VA + VB almost as finished as we'll get. One VB misses appears to have 4 plans. Stout = buildings (is potential slave...
Grates.  2. Track mission.
7/8
High status artifacts, including stoneware & decorative
Bulldow & plain Delft.

3. Features set into track deposit
filled with more debris.
4. Upper wet area of track.

Area XII - Cleaning units directly
over chimney mound.  Here
found mostly nails & windows fra-
kes & artifacts.  One
with adjusting wheel from a
canoe.  Later found 57
patent dates of 1860 & 1867 of the
Venus company.  (At least 34 Venus unit.)

Personal: VERY GOOD
Beezy Just much improved after talk.
Becky Roman GOOD very quiet after final talk.
(only Hyper -- then she still talking management down after work in paranoid fervor).
Katherine Fleming will not drop topic of moving Bruce & me & Bruce.
A real annoyance. "It's illegal.
Can't go on we're getting hostile."
Have heard from NOONE ELSE. Bruce
doesn't care. "Heard the grapevine he's wrong."
Everyone else is fine! Good
crew. Working hard. Making
great strides ahead.

TAKING CAR TO STARK AUTO.

Doug Welker -- Project Supervisor SIA
left message for. -- will get back
9/24
To us. As long as trucks can still get by, doesn't seem there will be any trouble. Wasn't in at 1:30 pm. (give it till tomorrow) am.
Talked to Guy Walkins.
Leave enough room for trucks to get by.

10/1/87
Cold and clearing. Rain yesterday A.M. freeze by 9:30. Cleared most of hour. Set Ellers comb to helping Bill finish Areas V. Beneath bracket claret, muffle of potential chimney found broken Western jugs (mostly complete), broken British brownstone jug, and fabric fiber. Well burned on top of burned wood layer.
Overlying dirt floor. Plaster 10/1/87 well extends into southern 1/2 of cellar. Plaster west wall of cellar extended to beam still of entryway.

→ NEED NEW FILM CANISTERS.

Perfection
9/28 — 708.00
9/30 — 516.00

in corner. The entryway however when originally excavated extended over entire southern 1/2 of cellar block & was then (to the corner) refilled to doorway.

original cut

[Diagram of the entryway showing original cut and planking location]
Balloon flight cancelled. Will use cherry picker next. Thursday.
John McCarthy will be here today to discuss this.

1. Examine areas 17 crews - how long should Ellen remain in Area 17?
2. Send up pendulum - 5 sec.
3. Send someone for plastic.
4. Tell Greg weather balloon flight is off after discussing details of next week's photos - 5 sec.
5. Get trapping paper
6. Call West Chester about parcel(s).
7. Call book store - Pick up books on weekend, Sat.

Impression of wood blocks in large section of earth in potential chimney fall in VA cell. Can see where
"Unc: sez:"

1. self-propelled work platform next week. Charles has to find out when.
2. Need to clean all of the area I's, as will be able to see all of them from platform.
3. Finish passageway - "License to Kill," Area VA.
4. 18.75 2x2's to be completed in Area X11. Q: How many are done?
5. Wants to see slides - slides are coming.
6. Dave needs to bracket dark.
JACK cont.

I would be quite willing to accept
her resignation. (HERE, HERE, HERE).
where Nall of door into 10/1/84
passageway was set into door
infilling.

10/2/84

Katherine threw a fit today in
Eric's area (reported by Eric).
About showing up on time after
break. Actually jumping up and down
Embarrassing. Decide what to do.
For moment, move Katherine
Dana. K to Ellen's area. D to
Cecile. Get Charles advice.

10/3/84

Katherine + Becky both request
to be moved from Eric's area.
Into cleaning. Bill's area.

</table>
Area XII —

Cable has a rubber bottom from the Novelty Rubber Company which made bottoms from 1855 to 1875. Pretty common at that time.

Area IX — nothing new to report.

With pad extending further to east than expected. Getting wider glass over it. Extends at least as far as edge of east pad to South of it.

Area VII — opening cut around previous tent whose feature was found. At north edge have two features in one unit which resemble plating feature.
Area VA, VB, VC: 10/5

Cleaning up for failure. VB have T flam well established along edge of deck below.
Floor will be re-used with new

VA - have removed all of material from trench quickly last wk.
Straight shot at angle out of cellar up stairs. Apparently, some burned floor goes into

Corner of east branch passageway behind wall of cellar. Apparently
passage does carry in the cellar
even though door didn't.
Don had 28" strap hinges.
Both Katherine Fleming and Becky Roman have been severely warned about their flaws. Don’t have it in writing of Katherine, but everybody一致. Sure to blackmail me for their firing. Then on him.

Procedure to fire: (B+K)

Let them go tonight.

0 Write memo to Kathy for both
A. Reasons for firing - of John and Charles
B. What was told.

(End of crop) supervision of supervisory personal. Becky puts her up. 0 General attitude of problem affecting field team. OK attitude in normalization
(5) Don't care to dictate tomorrow.
(Director of Cultural Resources
agrees. No appeals possible)
Be gone by 9:00 a.m. at latest

Pam 203-370-1363.

Problems: both
Becky Roman & Katherine Fleming
are still here. Both feel
can't work yet. Katherine
apparently has brake trouble
in an ancient car that is
hard to repair. Becky wants
a top for her truck to cover the
back before she'll leave. Feeding
among some of crew after

RENTAL FIRM: 627-3888

Ron Thomas
1,000
in Washington
in Maryland
in Mill Road

Jeanne told them 10/12
yesterday to leave a pay
rent - that we're trying to
rent people who can't leave.
Called John. Need input on
what to do. My nerves are
shot by all this. Personally
I need this resolved and
gone before I'm a
basket case!! Project gone on too long!
6 months now.
Deciding what to do in 10/12.
Aunt's. Need to expand out around cellars to see if large structure completely encloses cellar and passage. Also need to get outline down of UB "cellar" if that's what they are. Largest appears to have been found. Question: What is structure over them? Need to expand out to find out.

10/13

Becky Romans should be gone today after talk with Charles yesterday. Katherine should be gone by Friday.

1. Made a chair for Anna VIII (used paper)
2. Get heavy rubber gloves
Clearing area VIII. C&I in agreement about E's. A. (1957)
1/3 last word on meter.
Call John McC every couple of days to update on situation.
Obvious lack of managerial communication.

**Teel Pressure Booster Pump**
3/4 HP, 115/230 V, 60 Hz
165 PSI, 12 Stage

MAX AMB 40

Area XII - circle of bricks north of tenant home - floor. Stood inward. Some fine inside vs outside.
50 bricks. Appears to be furthest under top layer. Does not look like a well.
Brick rubble removed 10/13 from east side of chimney in Column X11. Nothing beyond edge to east of chimney foundation. Brick rubble again at base of mound upon which chimney foundation is set.

The mound to the east of the pad has a white sandy fill layer which retains water in the extreme.

Brick in depression to east of chimney one edge to

Brick tied in yellow mortar.

Same color as my bulwark extraploy but no shell mortar.

Kathy Fisher leaves Saturday. Returns
Evening of 26th Be or after 27th
Line for the week,

Nancy Kassen, DC. SHPO.
Call for pox, condo. H Street.
Look in blue pages.

Area VIII — Clearing. Will plant the
6 2x2's in relatively mildly
sloped area of the shoreless test
lots and the testing phase 1x1.
Below main level area is a
short steep drop (northern rear vertical)
and then a gentle slope to
the south west of two "kneec"
downs butter of the revere.
Easy descent. More butter
In area below then x found 2
pieces of granite which were found and appear to have come from Muer's house. Q.1. How did they get to the bottom of the ravine?

Q.2. For what reason? At low bottom five men wash out cobble as in stream. Abundant supply. Also in Area 1X at bottom and not far below surface. No trouble getting cobble hard time. Also brick pugs at bottom and as go down side of ravine.

-send platform key to rental service! *an address on previous page*

Have Betty go to NOAA office and 15103 map. Take
Clean up & dechore dump in your corner of the house.

10/14

Willing to bet Area X11 has a small 2 room structure? a brick floored front porch.
The porch which the fireplace sits in measures 30' x 15'.
The fireplace roughly centered (slightly to west of center).
I think wide "path" comes from N to west side of fireplace. But door was there. Also believe
set on fieldstone pier. Wood frame construction. May find wood fresz under wall on chimney fall in depression to the west of post. Long axis runs east west. Brick pad of "porch" measures 30' east west, maybe S. N. E.
Rental Car.

Get off on PA Ave. & 301.
262 pm 495 to PA Ave.
Exit 11 in LA. PA Ave.
301 towards Baltimore.
100 yards.
Chevy Dealer on Rts.

Call Charles at home before
7:15 pm.

Pick 5 or 4 people to go
to Jamestown Conference.
Billy Ray, Ellen & a couple
friends.

TH NOV. 5.
Look AGAIN for seeds! Moccasins again for them.

Area XII: Clear around chimney completely. When strat, strip for Charcoal.

Area V: find out about posts for this spot. Do we check?

Area VIII: great warm micro-environment. Good for animals or people. Lots of shelf rock & artifacts. Mixed variety.

Area VII: Tree stumps
Both apparent planting feet.
Betsy have gone in AM Tues to NOAA. Don't be in — maybe all day.

10/19/87

Ace XVII: spot hole directly N of Morten in straight line east - west along NE edge of structure. 3 of the level pegs - Cecil finds the levels' 5th indirect.

Penny dating to 1882. (Age 1859-1909)

Lot of loose around chimney where Anne was writing, around SE side of chimney.

⇒ Call for locals.
Call universities, call
10/19/87

Call Henry, Pam Creasy, Call Steve Potter to see if any. Call Alexandra again. Call Lee Crowel. Try for Aussies.

9/20

1st
(1) Call Ken for paper bags.
(2) Call John McCarthy about $10.

Overcast, cool day. Sun showed already. May rain in pm.

3rd call people about locals.

After lunch?
Monroe was out briefly. Liked our wall "good, sturdy garden pathway ten". Monroe house & beyond.

Lays at Mount Clare in Baltimore. Similar wall was a demonstration wall — divided property 49. Gardens on one side &
work house, kitchen, etc. Including entrance to area (ie breezeway) on other side. Bottom was of stone + wall 9' pickett fence 8' heraldic tires at 2nd end. Cemetery directly opposite old manor.

Fireplace - some stone around edge of firebox, scorched but marker doesn't appear to have been. Pin debris which goes from ground surface to level of hearth floor have debris of ash material about 1/2 in. To went find material beneath hearth floor is broken rubble debris, quite a jumbled mess!

There is no division between the two. Question - what separated them? Was there a grate 37 in. the firebox that was fell through which has been removed? Or was there two use of the fireplace - one before and one after introduction of
the health? To north - directly.
Can found numerous artifacts
including a bone handle, terra cotta
pipe bowl fragment, shell, some
ceramics, Hapa traffic area?
Close the front door? Or is this
true debris swept from health?
Are found knives, spoons, but
no forks. Is this a sign of eating
habits. Are tenants similar cafes
to overseers of many stews that
much else? No need for folks?
At eastern edge of porch
wishing parting have cluster
of long flat stones. Is this
edge of porch support or home
support perhaps? Crumbled
red debris beneath. Brick of porch.
Dear Mr. Smith, 1st of July

I understand that you are looking for a new position. I am currently employed by ABC Corporation, where I have worked for the past 10 years. I have held various positions over the years, including assistant to the company's CEO last year. I am confident in my ability to adapt and excel in any role.

Please feel free to contact me if you have any questions or if you need any further information. Thank you for considering my application.

Sincerely,
[Your Name]

[Signature]

Date: 31/11
Area X!
Old road (1883 map) rutted into ground by use over a long period of use. The apparent mounded edge to the west is actually an intact soil horizon. So road is much from use, just dry into landscape at this area. Bush deposit along NW edge of road in area just that. No structure.

Area X-

4 postholes in 2x2 at near end of area. May be north end of area VB.
The post are beneath the cobble fill and interring soil layer. The brode scatter to the north is quite large but is
just that. Nothing beneath. No structure. Maybe a special pole from construction of the main house. Virtually no artifacts by posthole being excavated. Several pieces bottle glass, chandelier/unknown & several nail frags - one green flake. From bricque rubble - one piece of green bottle glass & bubbles. X posthole under bricque rubble at north end. Bricque rubble overlain by cobble drive (partially). Features appear to extend N beyond brick rubble.

Area 1B returned to area to address front step area in hopes to locate artifacts leaving to construction
11/18

Of the Manor House.

Cobble came up to front of granite front step (F 238). Between stone cedars have filled of cobble. Under the top of the cobble are destruction debris. Among cobble (top of) is debris got gingerbread bottle with plug & shoulder & part of handle, knife blade frag. Denton - glass decorated (pressed) blade & plain whiteware frag. Gingerbread bottles = 1820 - 1900.

Also very thin glass ampule frags were removed from N edge, center.

* 2nd step slid forward can see where set by cobble inset.
Area 13 -
Behind stairs - in unit against edge of foundation have 7 print Whiteware (blue), planehere, nails & one of our earlier units. All along east wall of manor home. Two bricks in a row heading east in line. Beneath here are board hanging west over foundation edge. Work brick.

Step at unit 6 postholes in same location on west foundation wall. Possible scaffolding. Or is this a larger test? in unit?

Appears that large blocks for stairs were laid on flat stone to keep level. Also appear to be construction brick delin beneath.
Celebrate drive and appear to 50
beneath stones (flat) supporting
large blocks.

Area 13 - west edge -

---

In place last beneath stone -

gness which he removed,
got to construction layer.

Central brick feature on pile

overcast, cool. 60's. Warmer than yesterday. Had little say over what had been happening the last 2 days. Have been in Charles office mostly. Bill stripped part of V5 with a book bur. Will spend last week dissecting features in V1, V5, V6. Trying to get final Mas of features of "early Manic House." Water in many of the old features. It's been too cold for it to evaporate! Looks terrible. Done with all other areas. Real V1 - drain extends beneath western porch. Material on top of western
Deems older than material from eastern pack.
Some porcelain (blue decoration)

Last day before Thanksgiving. Down to Area V & Area B, Area V cleaning up southern end and mapping - basaltic features for the last time.
Area B - working 47 in western steps, drain runs N-S through steps center.
Area VI, VI - south of VI many small postholes.

Dave W. & Money am Bruce J. at West Chester at 7:30. Call Ken in West Chester.

**Total for week:** 552

**Total weekly earnings:** $380.00

**Weekly earnings:**
- $10 - 5½
- $10 - 1½
- 9 - 70'
Last week of the project. Wednesday (last) Wally finished work in Area XL. Now we are only in the Area Vs. Work is limited to the southern end of the Areas. Rain and the weekend. Area is a mess! All the areas are a mess now!

In Area TB -

Most of the eastern staircase cobble (much smaller than the drive) of drives upon come behind granite (argent) steps and apparently describe a much smaller porch earlier in time. The wood piece sticking
but into the cellar foundation was found to be a tree root only. The granite steps appear to be a later addition (a room fired cartridge - earliest date 1860 was located beneath a layer of cobble used to support and retain the steps. Pretty well sealed). Question: Why make such nice steps for basement only? Western steps: Western porch is of natural fieldstone and has a series of simple stone running around it and the piece that ran through it. An IA feature of house.
Gravel was excavated.

DRAIN was all the way back
to the farmhouse. The
ground surrounding the
DRAIN is an expanse
of a few hundred feet
deeper than the DRAIN;
the gravel and clay pit was
would be completely
unsuitable for draining
water (the saturation
potential - Don Weyer). A
thin layer of peat
laid over the gravel.
Possibly a quaking affair?
THINGS TO DO:  11/30

½ 0 Call rental places about removal of equipment & procurement of a hoisting beam. Called Jeff Johnson.

√ 0 Get metal shot can.

√ 3 Go to bank & call Charles about paychecks. Passed out paychecks.

√ 0 Get brick sizes from slutter & measures & call & hire tenant home.

3 Find costs of brick slat & gravel pad.

√ 0 Begin breakdown of wheelbarrow & clean up equipment.
1/30

- Call Mont. Dad at drop-end.

- Stay over.

- December 20 PER DIEM.

- Trailer

Brick from the wall fall west of the main house, part of the house wall also became 21cm x 9cm x 5cm.

Bricks at the southern end of the lower house central wall ditch - 21.5cm x 9.5cm x 5.5cm.
Birch in the southeastern fireplace support also measured roughly the same. Small variation, as such:
22 cm x 5.5 cm x 9 cm, 9.5 cm x 5.5 cm.

Birch from southeast corner = 21.5 x 9.5 x 5.

Birch in central cold storage room 21.5 cm x 9.5 cm x 5.

Birch of "well" in cold storage room 21 x 9 x 5.

Birch of lowest partition in NW room 21 x 9 x 5.

Birch ammonium bicarbonate floor 22 x 10.5 x 5, 4.5 cm from 20-22. Most however consistently 10.
Upper Kitchen floor varies from 20.5 to 21.5
9.5 9
5.5 5.5

XII -
Brickstone chimney:
21.5 x 10.5 x 6 cm
23 x 10.5 x 5.5 cm
21.5 x 9.5 x 5.5 for porch
21 x 10 x 5 for walk.
1. get brick sizes.  12/1/87
2. find edge of brick clinker + gravel.
3. call rental places.
4. put down deposit at Thrifty Rental on South Pickett Street. ASAP!
Jen is out this morning with a hide headache. Should be in later today.
5. Do Harris matrix - VA + VB.
Bisecting features in eastern part of area VA + VB. Will continue that today.
December 18, 1985

Weather cool and clear. (High 49°) Snowed down yesterday by weekend Storm. Made a mess of things.

How bout a Kerosene can + Kerosene? For last three days? Sure, why not?!

On line of the southern edge of the western pan graphs between the step of the foundation well were several post holes. 2 1/4 ft. one north of both 2 ft. between them. Both may be under the 1st stone of the steps. This may all be part of an earlier post in the.
Ground porch. Allege
apparent path does not
located beyond the southern
edge of the steps (cont'd).
Which chef the drain. While
now beneath the porch,
was bisected by the east-west
drain which goes to the house.

SD: NS running drain
came 15. The southern hole
were line up W North hole
of the part of the porch. Then
porch bisected Drain. E-W
Drain also bisects N-S drain.
And run around new porch &
deeps on an edge to the southern
porch hole as in contemporary
it flulled. Construction details.
Q: Does this make east west draw 

of daily punch counter's name. 

If so Why does it go around. 

West step. Which is edge punch 
pots?? That just behind of 

post W drive. Becomes devi 

(E-W) would underneath post (old) 

crack. As N-S from 1st then 
punch (old) which take out N-S 

draw. Then E-W drive over 

old punch removed to new punch which 

drive goes around. 

CALL CHARLES WHEN 

RETURN TO APARTMENTS.
Ask Betsy Cohen if interested in several weeks of labor work.
State Highway job for 26 days.
May 1st for 2 people.
