Richard Bennett Obituary and Funeral Notice.

Maryland Gazette :

Oct. 18, 1749

Annapolis

On the Eleventh Instant Died, at his Seat on Wye River in Queen Anne's County, RICHARD BENNETT, Esq.; in the Eighty-third year of his Age, generally lamented by all who knew him. As his great Fortune enabled him to do much good, so (happily for many) his Inclination was equal to his Ability, to relieve the indigent and distressed, which he did very liberally, without regarding of what Party, Religion or Country, they were. As he was the greatest Trader in this Province, so great Numbers fell in his Debt, and a more merciful Creditor could not be, having never deprived the Widows or Orphans of his Debtors of a Support; and when what the Debtors left, was not sufficient for that purpose, frequently supply'd the deficiency. His long Experience and great Knowledge in Business, as well as his known Candor and generosity, occasioned many to apply to him for Advice and Assistance, and none were ever disappointed of what was in his Power, and several were by his means, extricated out of great Difficulties. He was always solicitous to prevent Differences among his Neighbors, and to reconcile such as he could not prevent. In short, nothing gave him so much pleasure as doing humane and benevolent Actions; and it may be truly affirm'd, that by his Death, the poor and needy have lost their greatest Friend and Benefactor.

On Wednesday last was solemnized the Funeral of RICHARD BENNETT, Esq. of Wye River, in a very handsome and decent Manner, by the Direction of his sole Executor, the Hon. Col. EDWARD LLOYD. Mr. Bennett, by his Will, has forgiven above one hundred and fifty of his poor Debtors, and has made Provision for the Maintainance of many of his Overseers, and other Dependents; and settled a Sum of Money to be paid annually to the Poor of a Parish in Virginia; and done many other Acts of Charity and Munificence. He was supposed to be the Richest Man on the Continent; and as he died without Issue, he has, left the Bulk of his Estate to his Executor.

carried to fires in order to be thawed, before taken to market. And yet, what is very surprizing, the corns have a fine appearance, but the fruit on the trees has suffered considerably.

Chesbatta, (in Nova Scotia) August 23, 1749.

"Fifteen of the chiefs of the St. John's Indians were here not long since, and ratified the peace made at Annapolis before the French war, and are gone home in the Anson galley, and seem to be peaceable and easy. The Mickmucks, or Cape-Sable Indians, have been here daily in great numbers, trading in a friendly manner, with us till four days past, at the head of this river, they insulted a boat with some of our people, by rushing to them with a great body, as soon as the boat struck the shore, and took two of the arms, and fired them off, then took the oars, and ran into the woods; but the corporal who commanded the boat, being a resolute man, he pursued them, and wrested both the arms and oars from them, and returned: Upon this the Indians all drew off, which we since understand they were ordered to do by their priest, with some other remote tribes, to a place of rendezvous, which we imagine is to consult some means to annoy us and the settlers here, being incited by the French inhabitants, who since the discovery of his majesty's instructions to them, I believe will take all methods to prevent a British government here, they being obliged to bear full allegiance to his Britannic majesty, form themselves into a regular militia, and give all assistance in arms whenever called, or move off, without liberty to sell, or even to do the least damage to their lands or houses, which they are to give a peremptory answer to in three months: They have therefore sent dispatches to the governors of Canada and Louisbourg for advice, and it is generally thought many will quit, which will leave fine possessions for good loyal subjects.

Capt. Joseph Gorham, in a well armed sloop, is ordered by the governor to cruise along the shore as far as the bay Vert, to distribute his excellency's proclamation to all the harbours inhabited, with power to seize all vessels that shall be found carrying provisions from this province to other colonies, especially to Louisbourg; and to make what discoveries he can of the designs of the inhabitants and Indians. It is thought he will cruise as far as Louisbourg, there being several shallops from thence at Canoe, cutting of hay, and it is not doubted he will soon give a good account of them.

There are five picket forts building on the back of the town of Halifax, which will be garrisoned with Warburton's regiment, Col. Gorham's company, for the security of the settlers. Governor Hobson with his regiment, (in five ships) sailed for England the 19th instant.

WILLIAMSBURG, August 31.

We have receiv'd the following Certificate from Suffolk:

Suffolk, August 18, 1749.

THE Gentleman who has been entertaining us with a Course of very curious Electrical Experiments has also applied the Electrical Fire to the human Frame, with remarkable and speedy Success, in curing the Tooth ach, Pain in the Head, Deafness, Pains in all the Limbs, which had been so violent as to take away the Use of them, Pain in the Stomach, Swelling of the spleen, Sprains, Relaxation of the Nerves, &c. The most remarkable are the two following Instances, viz.

One Samuel Milner, who for three Years past could not lift his Hand above his Head without putting his shoulder out of joint, by a few Applications of the Electrical fire has met with a perfect Cure.

A Negro Boy, about sixteen Years of Age, who had always been so Deaf as scarcely to hear the loudest Sounds, has by the same Means been brought to hear, when spoke to in a common Tone of Voice.

We the Subscribers thought proper to give this Information to the Public, that others, who may have the Opportunity, might be encouraged to make further Trial of this wonderful Remedy.

ANNAPOLIS.

X On the Eleventh Instant Died, at his Seat on Wye-River in Queen Anne's County, RICHARD BENNETT, Esq; in the Eighty-third Year of his Age, generally lamented by all that knew him. As his great Fortune enabled him to do much good, so (happily for many) his Inclination was equal to his Ability, to relieve the indigent and distressed, which he did very liberally, without regarding of what Party, Religion or Country, they

were. As he was the greatest Trader in this Province, so great Numbers fell in his Debt, and a more merciful Creditor could not be, having never deprived the Widows or Orphans of his Debtors of a Support; and when what the Debtors left, was not sufficient for that purpose, frequently supply'd the deficiency. His long Experience and great Knowledge in Business, as well as his known Candor and generosity, occasion'd many to apply to him for Advice and Assistance, and none were ever disappointed of what was in his Power, and several were by his means, extricated out of great Difficulties. He was always solicitous to prevent Differences among his Neighbours, and to reconcile such as he could not prevent. In short, nothing gave him so much pleasure as doing humane and benevolent Actions; and it may be truly affirm'd, that by his Death, the poor and needy have lost their greatest Friend and Benefactor.

Last Saturday came up the Bay to this Place, the Sloop *Hopewell*, Capt. Strachan, who sail'd a few Weeks since for Barbados; but meeting with excessive hard Weather about 50 Leagues from the Capes, and springing a Leak, was obliged to return, and put into Norfolk in Virginia, where Capt. Strachan sold her Lading, and came back to this Place. He brings a melancholy Account of a Storm which happened very lately, and has done incredible Damage near the Mouth of our Bay. On Saturday Evening, the 7th of this Instant, he being then at Norfolk, the Wind began to blow hard, and about one or two in the Morning was very violent at N. E. with Rain, and still kept increasing; but the most violent of the Storm was from ten 'til two on Sunday. The Tide rose 15 Feet perpendicular higher than usual, forcing Ships and other Vessels ashore where the Water was never before known to flow; many of which are now so far from the Water, and some of them loaded, that it will cost as much as they are worth to get them afloat again, if it be practicable: Several new Ships were carried off the Stocks; all the Wharffs, and several Warehouses were carried away. A Warehouse of Col. Tucker's, 60 Feet by 30, having in it 90 Pipes of Wine and 40 Hogheads of Rum on the lower Floor, and a Quantity of Corn and Oats in the Loft, was taken off it's Foundation, carried a Mile and a half from the Place where it stood, and landed upright on the other Side of the River, without any Damage to what was in it; this Warehouse passed by the *Hopewell*, the Eaves of it being about four Feet above Water, and touch'd her Quarter, without doing any Hurt. Wharffs with Anchors lying on them of 1000 lb Weight, were seen floating on the Water, and were carried away bodily, Stones and Timber together; and the River was almost covered with Lumber, Masts, Yards, Bales, Casks, &c. And by a Letter from a Gentleman at Norfolk we are informed, that the Damage there amounts to upwards of 30,000 l. Some Gentlemen now at Norfolk, who were in Jamaica when the last great Hurricane happened there, which destroyed several Men of War, &c. say it was not so violent as this. The Tide kept continually fluxing, and run at the Rate of five Miles an Hour; it overflowed all their Streets, carried some small Craft near a Mile from the ordinary High Water Mark, and left some of them in the Corn Fields.

At Hampton much Damage is likewise done: A noted Tavern there, kept by Mrs. Hawkins (who gave Name to Mother Hawkins's Hole), was 8 Feet in Water; and a Yawl was paddled through the Passage of the House. A little on this Side of Hampton, at a Place called Back River, three Families it is said, were drowned, the Men, Wives, and Children.

In Worcester County, in this Province, the Tide rose to a prodigious Height, and has done considerable Damage: Capt. Newbold's Sloop is now lying high and dry in an Apple Orchard: And the Losses sustained there, in drowning of Cattle, Horses, &c. are very great. The Sea broke over an Island in the said County, called Phoenix Island, on which were between 4 and 500 Head of Cattle, and 60 Horses; whereby all the Cattle were drowned but five, and all the Horses except one. The Damage in Worcester County, is computed at about 10,000 l.

Three Vessels are ashore at the Capes; and at Norfolk very few rode it out.

Ent'ring, he cries:—Hey! where's our thunder fled?
 No hurricane! Betty's your lady dead?
 Madam, aside, an ample mouthful takes,
 Court'neys, looks kind, but not a word she speaks:
 Wond'ring, he star'd, scarcely his eyes believ'd,
 But found his ears agreeably deceiv'd.
 Why how now, Molly, what's the crotchet now?
 She smiles, and answers only with a bow.
 Then clasping her about,—Why, let me die!
 Those night-cloaths, Molly, become thee mightily!
 With that he sigh'd, her hand began to press;
 And Betty calls, her lady to undress.
 Nay kiss me, Molly, for I'm much inclin'd,
 Her lace she cuts, to take him in the mind.
 Thus the fond pair to bed enamour'd went,
 The lady pleas'd, and the good knight content.
 For many days these fond endearments pass'd;
 The reconciling bottle fails at last.
 'Twas us'd and gone.—Then midnight storms arose,
 And looks and words the union discompose.
 Her coach is order'd, and post-haste she flies
 To beg her uncle for some fresh supplies;
 Transported does the strange effects relate,
 Her knight's conversion, and her happy state.
 Why niece, says he,—I prithee apprehend;
 The water's water:—Be thyself thy friend;
 Such beauty would the coldest husband warm,
 But your provoking tongue undoes the charm:
 Be silent, and complying;—you'll soon find
 Sir John, without a medicine, will be kind.

B O S T O N .

September 28. On Monday last his excellency our governor embarked for Great Britain on board his majesty's ship *Bejost*, capt. Pearce. In the morning the company of Cadets mustered, and about ten of the clock his excellency came to the council chamber, where, after he and his council had finished some public business, many persons were admitted in order to wait on him and take their last leave of the governor. After having spent some time in the council chamber, his excellency, the Gentlemen of his majesty's council, with the civil and military officers, preceded by his excellency's company of Cadets, marched to the end of the Long wharf, when the company of Cadets, opened to the right and left, the officers of the militia passed through and lined the way to the Castle barge which was waiting on this occasion. His excellency then took his leave of his hon. our commander in chief, the other gentlemen present, and very catholically condescended to shake hands with a S—r, notwithstanding the great disgust its said he had often express'd at the political writings of one of that occupation. As soon as the barge put off, his excellency was saluted with the guns from the batteries, and with three huzzas from the spectators, whose shout upon this occasion was thought to exceed what is commonly made upon the reception of a new g—r. As his excellency passed the castle he was saluted with a discharge of the cannon.

The day before his excellency's departure some of his friends were very assiduous in spreading a report, that the g—r had received a most agreeable letter from the Rt. hon. Mr. Fox, secretary at war; this letter so raised their spirits, that some of them in their exarcy desired to get it by heart, which they were permitted to do; and it is said is in substance as follows.—“His R—l H—s commands me to acquaint you, that he has with pleasure read your sensible letter, that he looks upon all the reports spread to your disadvantage to be scurrilous and groundless, and that he is well satisfied with your conduct. I have as much pleasure in writing this as I doubt not you will have in reading it.”—This letter it is probable may be genuine; but we are not now so easily led into the belief of it as those gentlemen reporters were so far mistaken some months past—as to give out that they had seen a letter to his excellency in answer to one wrote desiring leave to return to Great Britain—where in he was informed that his request could not be granted—for as the ministry were intent upon the scheme for settling Nova-Scotia, and he was so knowing and capable of advising and directing in that affair, his continuance in these parts was absolutely necessary.—This occasioned the talk of his being ordered home to subside.—And upon the g—l C—r's meeting a month or two after, his friends very industriously pushed the

voting him a salary for the coming year; a grant was accordingly made him, which tho' something short of the last year's, he yet accepted, giving this reason.—That the severe drought we were under induced him to do it.—Soon after this grant he got a warrant from the council to receive the same, and then with a grace, peculiar to his ex—cy he acquainted the g—l C—r that he had obtained leave to be absent from his go—nt for twelve months.

† At that time a ship arrived from London, when a gentleman passenger, and a gentleman of this town in the secret dropt it that the g—r was ordered home, and is accordingly turned out that he either obtained liberty or recalled orders per said vessel, or about that time.

WILLIAMSBURG.

October 12. We hear from the upper part of the country, that the great freshes of late have done great damage to the crops there.

From the lower part of the country, that by a great gust of wind and rain, which happened on Sunday last, many people received considerable damage thereby; some houses being carried away by the high tides, and one whole family drowned.

From Hampton, that the water rose four feet in the streets; and that considerable damage is done to the shipping, several being drove on shore, and some out to sea; the wind being so violent, that it tore up large trees by the roots, and snapp'd others in the middle. The like storm has not been known in the memory of our oldest men.

October 19. Since our last, we have received several accounts of considerable damage done by the late storm, in several parts of the country. The loss they have sustained at Norfolk, among their shipping, and otherwise, is computed to amount to no less than 10,000 l. Sterling. The —, *Hunter*, from Glasgow, and the —, *Patison*, loaded with Tobacco for Glasgow, are drove ashore near Cape Henry. A large ship is sunk in the Bay, and the whole crew, 'tis likely, have perished, several dead bodies being found on the shore. Most of the shipping have suffer'd considerably by this misfortune, many of them being so far in the woods, that the expence of getting them off will nearly amount to the value.

Maryland Gazette :

Oct. 18, 1749

Annapolis

On the Eleventh Instant Died, at his Seat on Wye River in Queen Anne's County, RICHARD BENNETT, Esq.; in the Eighty-third year of his Age, generally lamented by all who knew him. As his great Fortune enabled him to do much good, so (happily for many) his Inclination was equal to his Ability, to relieve the indigent and distressed, which he did very liberally, without regarding of what Party, Religion or Country, they were. As he was the greatest Trader in this Province, so great Numbers fell in his Debt, and a more merciful Creditor could not be, having never deprived the Widows or Orphans of his Debtors of a Support; and when what the Debtors left, was not sufficient for that purpose, frequently supply'd the deficiency. His long Experience and great Knowledge in Business, as well as his known Candor and generosity, occasioned many to apply to him for Advice and Assistance, and none were ever disappointed of what was in his Power, and several were by his means, extricated out of great Difficulties. He was always solicitous to prevent Differences among his Neighbors, and to reconcile such as he could not prevent. In short, nothing gave him so much pleasure as doing humane and benevolent Actions; and it may be truly affirm'd, that by his Death, the poor and needy have lost their greatest Friend and Benefactor.

On the Eleventh Instant Died, at his Seat on Wye River in Queen Anne's County, RICHARD BENNETT, Esq.; in the Eighty-third year of his Age, generally lamented by all who knew him. As his great Fortune enabled him to do much good, so (happily for many) his Inclination was equal to his Ability, to relieve the indigent and distressed, which he did very liberally, without regarding of what Party, Religion or Country, they were. As he was the greatest Trader in this Province, so great Numbers fell in his Debt, and a more merciful Creditor could not be, having never deprived the Widows or Orphans of his Debtors of a Support; and when what the Debtors left, was not sufficient for that purpose, frequently supply'd the deficiency. His long Experience and great Knowledge in Business, as well as his known Candor and generosity, occasioned many to apply to him for Advice and Assistance, and none were ever disappointed of what was in his Power, and several were by his means, extricated out of great Difficulties. He was always solicitous to prevent Differences among his Neighbors, and to reconcile such as he could not prevent. In short, nothing gave him so much pleasure as doing humane and benevolent Actions; and it may be truly affirm'd, that by his Death, the poor and needy have lost their greatest Friend and Benefactor.

Oct. 18, 1749

Annapolis

On the Eleventh Instant Died, at his Seat on Wye River in Queen Anne's County, RICHARD BENNETT, Esq.; in the Eighty-third year of his Age, generally lamented by all who knew him. As his great Fortune enabled him to do much good, so (happily for many) his Inclination was equal to his Ability, to relieve the indigent and distressed, which he did very liberally, without regarding of what Party, Religion or Country, they were. As he was the greatest Trader in this Province, so great Numbers fell in his Debt, and a more merciful Creditor could not be, having never deprived the Widows or Orphans of his Debtors of a Support; and when what the Debtors left, was not sufficient for that purpose, frequently supply'd the deficiency. His long Experience and great Knowledge in Business, as well as his known Candor and generosity, occasioned many to apply to him for Advice and Assistance, and none were ever disappointed of what was in his Power, and several were by his means, extricated out of great Difficulties. He was always solicitous to prevent Differences among his Neighbors, and to reconcile such as he could not prevent. In short, nothing gave him so much pleasure as doing humane and benevolent Actions; and it may be truly affirm'd, that by his Death, the poor and needy have lost their greatest Friend and Benefactor.

Nov. 8, 1749

Annapolis.

On Wednesday last was solemnized the Funeral of RICHARD BENNETT, Esq. of Wye River, in a very handsome and decent Manner, by the Direction of his sole Executor, the Hon. Col. EDWARD LLOYD. Mr. Bennett, by his Will, has forgiven above one hundred and fifty of his poor Debtors, and has made Provision for the Maintenance of many of his Overseers, and other Dependents; and settled a Sum of Money to be paid annually to the Poor of a Parish in Virginia; and done many other Acts of Charity and Munificence. He was supposed to be the Richest Man on the Continent; and as he died without Issue, he has, left the Bulk of his Estate to his Executor.

RE:

Many thanks for note and dough. ↓

Could Draughty (?) = Draughts = drawings or
plans (like "blueprints" = plans)

Draughts could also be quoits = circles of rope
used for a game like "horseshoes"

Peter Sayer Inventory 1697/8

1) The furniture - of great interest :
the olive wood desk + Chest of Drawers (very early date)
the beds - and bed furniture !!
the linins
the turkey-work chairs ; leather chairs
to name just a few things

2) The Chappel Room of course !

3) The tools; especially the carpenters tools ...

4) That must have been a pretty fine team of horses :
New York Bay & New York Grey !!!

5) Note : The Next Plantation - ? where ??
The Wading Place
The Towne Plantation Town Road ??
Poplar Island

6) Comparisons :
5 bushels (1 barrel) Indian Corn = 6 shillings
30 bushels of corn = 1 Steer (4 yr.old) = 26 shillings

Now (1972) :
300 bushels of corn = 1 Steer (1 yr.old)
2 acres of land makes 1 Steer /or/ 300 bushels of corn

Then (1697) :
2 acres of land made 1 Steer /or/ 30 bushels of corn

So :
Corn is cheaper now (by a factor of 10); due to chemical
fertilizers, modern methods, etc. , but the ratio is
still there : land to corn to meat

Well 

I am sure there id more ... but it is late

Total Estate = £ 1670.04

Household = 207.12
